

Beautification Project Application

Do you have an area in your community that needs enhancing?? Keep DeKalb Beautiful would like to help you implement your project. We provide support for projects that build community, utilize sound ecological practices, and articulate the unique identity of the neighborhood.

KDB's Commitment

Keep DeKalb Beautiful will work with neighborhood groups and provide materials such as mulch and plants, cleanup supplies, resources to address graffiti, advisement from tree and plant specialists, as well as publicity and acknowledgment for your group's efforts.

Sample Project Ideas

Large Scale Cleanups – A large-scale cleanup project can focus on removing trash and debris. The project should not only cleanup the site, but also include a strategy for preventing future illegal dumping.

Grffiti Abatement – Graffiti is unsightly in a neighborhood and encourages more graffiti. Graffiti removal projects erase graffiti from your neighborhood and can create a clean slate for a mural project.

Mural – A mural project can beautify their school by creating a themed mural that expresses the unique identity of the community and promotes awareness about environmental conservation.

Tree Planting – Reduce pollution, add shade, prevent erosion, and improve the value of your neighborhood for decades to come by planting trees at a library, recreation center, school, or vacant public space in the neighborhood. *** Trees are offered with limited availability and are to be installed ONLY on county properties including right-of-ways. In times of drought or water restrictions trees and plants will not be offered.**

Beautification Project Coordinator Information:

Name: _____
Organization: _____
Address: _____ City/State/Zip: _____
Phone #: _____ E-Mail: _____

Project Information:

Date/Time of Event: _____ # of Volunteers: _____
Name/Location of Area: _____
Type of Project _____
(Choose from sample project ideas listed above or describe details about your unique project.) _____
